EDUCATION

University of Washington, Seattle, WA

Expected: July, 2028

Major: Engineering Undeclared, intended for ECE or ME

GPA: 3.74

Husky Robotics Outstanding member awards.

Beijing No.101 High School: Beijing China

- **GPA: 4.0,**
- Awards: International Science and Engineering Fair Finalist & China National Team Member (2024)
- AMC 12: 112.5 National Science Talent Program – Top 10% (2023) School Honor Roll – Top 5%;
- 1st Place Freshman Debate Competition (2022–23)
- **Finalist in International Science and Engineering Fair on behalf of China (selected from more than 1M teens)**

RELEVANT EXPERIENCE

Husky Robotics, Arm team, University of Washington

Oct 2025–Present

- currently working with seniors and graduates to learn use SolidWorks and MATLAB
- develop mechanical arm for University Rover Challenge

Vine-mimic Robotic Arm Inventor University of Chinese Academy of Science

June 2022–July 2024

- Designed and built a vine-mimic robot to pick apples.
- Study structure of vines and their degrees of freedom, use MATLAB to perform mechanical modeling
- combined traits of soft and rigid robots; developed with MATLAB, SolidWorks, and Arduino.
- showcased at 2024 ISEF Global.

National Science Talent Program Researcher University of Chinese Academy of Science

June 2023–July 2025

- Learned college-level physics, calculus, linear algebra, MATLAB, and Solidworks;
- Collaborated with a professor to invent vine-mimic robots.'

A physical rehabilitation equipment Project

2 months

- Used Java to make a small game and connected it with limb therapeutic devices
- Gave patients a happy way to exercise; gave it to 6 patients in communities

Online Game Account Shop Operator,

June 2022–Present

- Explored game markets and supply-demand relationships.
- Resold game accounts (earned 7000 CNY)

ADDITIONAL EXPERIENCE

Founder, Go Club & Inter-school Go Association Beijing No101 High School

- Held weekly club activities (20+ participants);
- organized 6 inter-school matches; introduced new ways to engage 100+ Go players.

Debate Coach Beijing No.101 High School

Sep 2024–July 2025

- Guided 10+ first-year students in scheduling and research projects;
- provided emotional and academic support.

Online teaching assistant for high school student ,Seattle

Sep 2025–present

- assist teacher to teach high school student AP courses, grade homework, etc
- work-study to earn tuition and living fee

TECHNICAL SKILLS

Programming language: C/C++, Java, MATLAB

Model software & tools: SolidWorks, Arduino, GPT-Sovits
